

Being-there and Temporality

By Shomit Sirohi

- I. Reading, Writing, Speaking, and Reflection – in Tactical Jottings – Temporality as Quick and Exact . Read the Bible, or Historical Materialism, even say Journalism which is Scientific materialism – make a jotting, or remark –

Underline scientific.

- I. Paulinian Apostles follow Christ as aligned with the people – among the people.
- II. Recent news is on Sirohi – in scientific format.
- III. Dialectics, jazz, all of that is then – scientific in the sense of minimum group and institution dialectic which is even film criticism. Developments of cinema in the house is in fact a Christ like appearance which is also Prophet being with CIA, and all that is capitalism because they are inventions in that Jewish sense. I also mean this is history. I mean of course that A Draft is all objective, and even synthetic as a dialectical discourse which remarks also on practical judgements and real materialist praxis – see it as that.

Biography

Lived as a student, became a revolutionary, and I am called a figure.

i. Articulate this

Imagine history to be about the masses, which have to be inspired into theology which happens by leading the mass line into practice evidenced by photography and constant news – even critique as attitude

Underline ideology.

II. Meeting

In the sense of an articulation meeting is planned in revolution or being-towards revolution temporality, this is because it follows steps – which then means it is part of that history as steps – what is called Five moments of praxis. It is then jotting – prepared and correct, self-correcting and aligned as jazz dialectic which approaches the other when allowed – all Messianic.
